- There are many worse ways of whiling away an evening & music was excellent – but take that away.....
- I was surprised how much I enjoyed it!
- Although it was good to see an animated feature that isn't as 'branded' as some others (e.g. the Pixar films), I thought the form, story and characterisation was a little dull and undeveloped. I was expecting something more adventurous and engaging. And given the centrality of music to the film's function I was surprised at how much this lacked any sort of punch.
- Nice change
- Unusual – not particularly my thing

- Not my type of thing.
- Music was good. Didn't like the character, animation/backgrounds good. Felt it was rather pointless.
- Wooden!
